PROGRAM: *Men in Transition*

Seeking the help of an EAP counselor or therapist is often the start of a life-changing process for men in transition, distress, or crisis. This program will explore the benefits of an intensive group experience that can serve as a positive supplement to individual counseling or therapy—an experience that helps men discover inner resources they can use to build a more satisfying life and a more promising future.

The presenters will discuss their own experiences as program participants and leaders, outlining the benefits of encouraging men to emerge from emotional isolation and to enter into authentic relationships with others. Topics will include a discussion of emotional memory, body centered psychodrama, relationship building, communications skill development, and transition planning.

PDHs and CEUs are available for Social Workers, Professional Counselors, Marriage and Family Therapists, Addiction Counselors, and Human Resources Professionals.

**If you are a member of another local EAPA Chapter, we will honor your membership and welcome you as a guest with no charge. If you do not belong to a local EAPA Chapter, you will be charged the non-EAPA member fee for attendance.*
